Assignment title	Assignment 1 – Cascading Style Sheets
------------------	--

The purpose of this assignment is to:

1. Assess different implementation styles of CSS.

Scenario

You are working for a Website development company called “Valerian Software” and have been sent to a client to create a website for them. Your role for the company is as a junior web designer. The client is a training company called “Train to Earn” which offers a wide range of courses including IT, business, nursing and foreign languages.

TASK 1 [P1, P2, M1].

As part of your role, you will need to explain the importance of Cascading Style Sheets to your client.

- 1.1** Create a presentation or report explaining what CSS is and how it can be accessed. In your description, make sure you include a description of CSS, why it should be used and how HTML can access CSS (such as inline, header and external. **[P1]**
- 1.2** In your presentation/report explain the Box Model in relation to CSS. Please include diagrams and illustrations to help with the explanation.**[P2]**
- 1.3** Add to your presentation/report an assessment of the different implementation styles of CSS. The descriptions need to be detailed and show that you have fully comprehended what the different implementations can be, and why they should be used for a particular purpose. **[M1]**

Evidence: Your presentation slides with notes or a report
